

“Online Social Network Analysis”

Nam Nguyen, PhD, Department of Computer and Information
Science,
Towson University

Thursday, Feb. 27, 2014 @ 3:30 – 4:45 PM, CSB - Room 210

Dr. Nam Nguyen is currently an Assistant Professor in the Computer and Information Sciences Department. He received his PhD degree in Computer Science from the University of Florida in 2013. Prior to his PhD, he got his M.S. and B.S. from Ohio University (in 2009) and Vietnam National University (in 2007). Dr. Nguyen's research interests focus on Network Structure Analysis, Social-aware Information Mining, Cyber Security, and Practical Mobile Computing applications. He is an Associated Editor of the Springer Journal of Computational Social Networks.

Abstract:

Online Social Network (OSN) is an emerging and exciting field or research recently. As more social network emerge, the need to understand their network structures as well as their dynamic behavior becomes more and more pressing. In this talk, I will discuss some of their properties, challenges, applications as well as promising research directions that can be further explored in OSNs.

Contact Dr. Soo-Yeon Ji (sji@bowiestate.edu) if you have any question.
